```java
package com.itbulls.learnit.javacore.string.hw;

public class PINumberFormatting {

    public static void main(String[] args) {

        System.out.printf("%.1f%n", Math.PI);

        System.out.printf("%.2f%n", Math.PI);

        System.out.printf("%.3f%n", Math.PI);

        System.out.printf("%.4f%n", Math.PI);

        System.out.printf("%.5f%n", Math.PI);

    }

}
```
